SCALING PROGRESS ACROSS VALUE CHAIN

- 6.4 GW MODULE
- 6.5 GW* CELL
- 6.5 GW# INGOT & WAFER

*4GW TOPCon cell manufacturing coming up by September 2026 | *Upcoming wafer/ingot plant in Vizag

For any inquiries or queries about ReNew solar panels, call **9220 440 044**

About ReNew

ReNew is a leading decarbonisation solutions company listed on Nasdaq (RNW, RNWWW), with a **20.0 GW** clean energy portfolio (including **1.7 GW BESS**) as of March 31, 2026, making it one of the world's largest clean energy companies. Beyond renewable power generation, ReNew delivers integrated solutions across clean energy, digital energy services, storage and carbon markets.

ReNew operates manufacturing facilities in **Jaipur, Rajasthan**, and **Dholera, Gujarat**, with a total module capacity of **6.4 GW** and a cell capacity of **6.5 GW**. The company is further expanding its manufacturing ecosystem with an upcoming **6.5 GW** wafer and ingot facility in Visakhapatnam, Andhra Pradesh. With this expansion ReNew's manufacturing arm will create value across the supply chain.

- 1

4 GW module manufacturing facility under one roof in Rajasthan
- 2

2.4 GW module manufacturing facility in Dholera, Gujarat
- 3

2.5 GW cell manufacturing facility in Dholera, Gujarat
- 4

4 GW TOPCon cell manufacturing facility (Upcoming) in Dholera, Gujarat
- 5

Upcoming 6.5 GW Wafer and Ingot manufacturing facility in Vizag
- 6

Largest manufacturing facility in Rajasthan Powered by a 7.2 MW rooftop solar system
- 7

9.3+ GW Cell and Module dispatched till June 2026

Ideal applications of M10 modules

- ✓ Ideal for projects seeking proven performance
- ✓ Well-suited for Indian climate conditions
- ✓ Reliable power generation with long-term durability
- ✓ Widely adopted for residential, commercial, and utility-scale installations

Driving solar innovation through world-class manufacturing facilities

- TOPCon and PERC Module technology
- Daily production of over 23000 solar panels
- Daily production of over 6.5 lakh cells
